WORK EXPERIENCE

STANDARD CHARTERED BANK – Global Banking and Financial Services Group Ho Chi Minh City, Vietnam

Product Specialist, Priority Banking

Mar 2025 – Aug 2025

- Co-owned end-to-end redesign of a loyalty program serving 400+ customers, from strategic planning through rollout.
- Conducted competitive analysis across 5+ institutions to evaluate engagement models and inform program redesign.
- Partnered with external vendors to launch a new mobile platform and internal tracking system.
- Monitored KPIs via Excel-based reporting frameworks, delivering recurring performance insights to senior stakeholders; contributed to 30% increase in customer engagement.

Management Trainee, Retail Banking

Sep 2023 – Feb 2025

- Defined detailed business requirements, documented end-to-end workflows, and created 100+ test cases to support the launch of biometric authentication features.
- Collaborated with Product, Technology, and Operations teams to investigate and resolve feature rollout issues, coordinating across business and technical stakeholders.
- Built performance tracking frameworks and monitored post-launch metrics, contributing to 90% adoption of a key platform feature within one month.

Credit Risk Intern, Retail Banking

Jun 2022 – Aug 2022

- Built an automated Excel framework to classify and flag high-risk client patterns, reducing manual review time by 10x.

PROJECTS

Smartphone Usage & Productivity: Exploratory Data Analysis | Python

UCR MSBA, 2026

- Analyzed a 50,000-record dataset in Python to explore relationships between smartphone usage, sleep, stress, and work productivity. Built visualizations using pandas, seaborn, and matplotlib, and delivered a reproducible Jupyter Notebook with written interpretation and conclusions.

AI Company Valuation Risk Analysis Using Monte Carlo Simulation | Excel

UCR MSBA, 2026

- Modeled valuation risk for 18 AI-native vs. AI-adopting companies (e.g., NVIDIA, Microsoft) using Monte Carlo simulation in Excel. Simulated R&D efficiency volatility across 1,000+ runs to quantify investment uncertainty, finding AI-native firms carry ~15% higher valuation risk. Delivered a full report, simulation model, and presentation.

Ride-Booking Cancellation Analysis | R

UCR MSBA, 2025

- Analyzed 20,000+ ride-booking records to identify cancellation patterns. Work included data cleaning & preparation (handling missing values, inconsistent formats, outliers), exploratory data analysis with multiple visualizations, and logistic regression modeling to predict booking cancellations.

EDUCATION

UNIVERSITY OF CALIFORNIA, RIVERSIDE, SCHOOL OF BUSINESS

Riverside, CA

Master of Science in Business Analytics

Sep 2025 – Dec 2026

- GPA: 3.95/4.00 (Current) | Merit Scholarship Recipient
- Organized and facilitated the Campus to Careers Panel, connecting 3 industry speakers with 20+ students.

UNIVERSITY OF ECONOMICS HO CHI MINH CITY, COLLEGE OF BUSINESS

Ho Chi Minh City, Vietnam

Bachelor of Finance & Banking

Sep 2019 – Dec 2022

- GPA: 3.77/4.00 | Outstanding Academic & Extracurricular Excellence Scholarship
